

# MOSS MURDER

BY GOVERNMENT - EXPOSED BY WHISTLEBLOWER

**British funeral director John O'Looney has worked closely with the government and BBC.**

**He is connected with 40+ other funeral directors.**

**In a shocking video, he reveals the following information:**

**T**he government has murdered thousands of elderly in care homes, and labeled them as covid deaths. This false data was used to start the 'covid pandemic' and lockdowns in the United Kingdom. The government then ordered all funeral directors to label every death as covid. Whether people died of car accidents, cancer or heart attacks, they all had to be labeled 'covid'. Apart from the thousands of murdered elderly, there were no excess deaths during 2020 compared to other years. The only thing the funeral directors saw was a relabeling of regular deaths as covid. For example, the millions of yearly flu cases are now all counted as covid.

**O**nce mass vaccinations started, death rates suddenly exploded. While there were no extra deaths during all of 2020, the vaccinations in 2021 are indeed causing pandemic death numbers. Honest scientists from the British health agency told O'Looney that the so-called Delta variant is actually a vaccine injury. Many people who suffer vaccine injuries are labeled as 'cases of a new covid variant'. John warns that countless vaccinated children will suffer from adverse events, which will be labeled as a new variant, for which new vaccines will be mandated.

**O**'Looney says that the 40+ funeral directors he is in touch with know what is going on, but they are terrified as they witness such mass murder by the government. O'Looney says he knows his days are numbered. 'If they are willing to murder these people, they will not hesitate to silence me.'
